PROFILE

Motivated and enthusiastic Higher National Diploma in Information Technology (HNDIT) student with a strong interest in technology and software development. Eager to apply academic knowledge in real-world environments and develop practical experience. A responsible and quick learner with good communication, teamwork, and problem-solving skills, seeking an opportunity to grow professionally in the IT field.

PROJECTS

ROOMS & LANDS RENTAL SYSTEM

- Developed a web-based system for users to search and manage available rooms and lands for rental.
- Implemented features for property listing, user registration, login, and rental management.
- Designed a simple and user-friendly interface to improve the property rental process.

E WASTE COLLECTING SYSTEM

- Developed a web-based system to facilitate the collection and management of electronic waste.
- Implemented features for users to submit e-waste collection requests and manage collection details.
- Designed an easy-to-use interface to support efficient e-waste collection and recycling.

FITNESS APP

- Developed a fitness application that provides personalized workout and diet plans.
- Implemented features including BMI calculation, workout plans, diet plans, progress tracking, and motivation.
- Developed user registration and login functionality with database connectivity.
